In 2018, JSA concluded cooperation agreements with national standards organizations such as the British Standards Institution (BSI), the German Institute for Standardization (Deutsches Institut für Normung e.V.: DIN), the German Commission for Electrical, Electronic & Information Technologies of DIN and VDE (DKE), and the French Standardization Association (Association Française de Normalisation: AFNOR).

With an aim to further global development of the JSA Group going forward, we will continue to dispatch staff members to related organizations and will work to strengthen individual coordination with government agencies and standardization organizations of various countries through activities such as the collection and analysis of overseas standardization information in Europe and Asia.
